Government

How would you define Government????

systems used to provide laws and rules for people

Types of Governments in the World

Limited Government

Leader have limitation placed on them

Leaders can not make rules without approval or voting on them

Types of Limited Government

Direct Democracy

Representative Democracy

Types of Democracies

Directed Democracies

People vote on every issue

Representative Democracies

People elect representatives to make rules and decisions for them

Unlimited Governments

Leaders or Rulers have no limitations on them

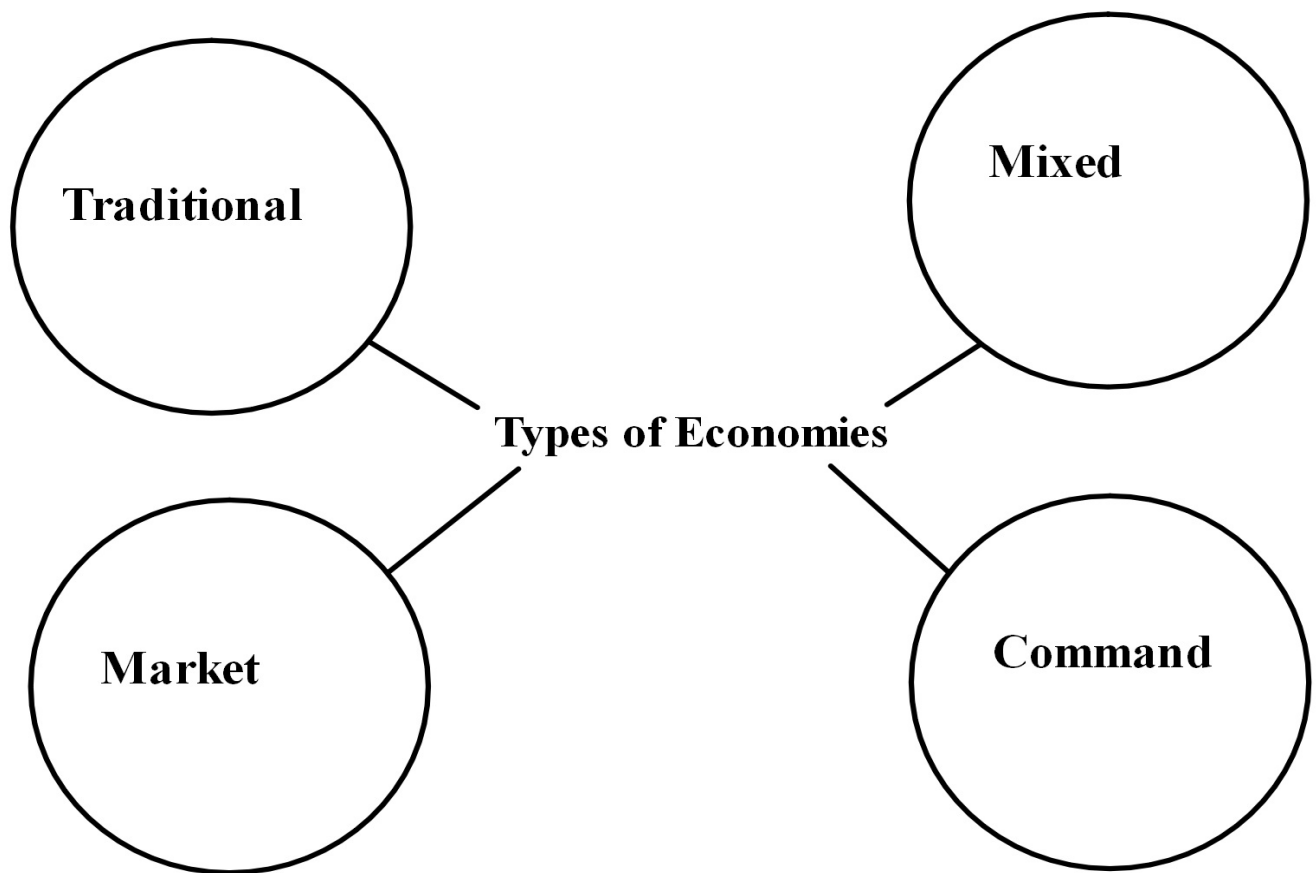

Can create their own rules and laws

Types of Unlimited Governments

Absolute monarchy

Dictatorship

Economies

Traditional Economy

People provide their own food and clothing

Only provide for their family

Command Economy

Government controls production and prices of goods

Market Economy

Supply and Demand will determine price of goods

Government does not interfere

Mixed Economy

Using both a Command and Market Economy

Government has some involvement

Industrialized Countries

Countries that have manufacturing centers that make goods

Goods can be sold to other countries

United States is only Industrialized Country

Developing Countries

Are starting to develop industrial centers but can only provide for people in their own country
